# Using Viator

IF you require your client to book on their own vs you booking for them please please please make sure they send you their confirmation emails because 9/10 times Viator will not add them to your account for payment. This is why I usually always book the excursions for my clients to ensure I get paid.

To share an excursion with your client to ensure that is one they will like open the excursion on your browser and then click “Share With Client” on the page.

The screenshot shows the Viator website interface. At the top, there is a search bar with the text "Search destinations, tours, attractions" and a magnifying glass icon. To the right of the search bar are links for "EN", "\$ USD", and a user profile "Natasha" with a shopping cart icon. Below the search bar, there is a breadcrumb trail: "Home / Things to do in USA / Things to do in New York / Things to do in New York City / New York City Tours / Tours, Sightseeing & Cruises / Sightseeing Tours / Skip-the-Line Tours". The main heading is "NYC One World Observatory General Admission Ticket". Below this, it says "OPERATED BY Legends OWO LLC" followed by a star rating of 4.5 and "1,645 Reviews", a "Badge of Excellence" icon, and "New York City, United States". On the right side, there is a button labeled "Share with client" which is circled in red. The main content area features a large image of the One World Observatory with a play button overlay. To the left of this image is a vertical strip of smaller images with a "See More" link. To the right of the main image, the price is listed as "from \$46.82" with a "Lowest Price Guarantee" and a "Select Date and Travelers" section. This section includes a date picker showing "Monday, Jun 13, 2022" and a field for "Number of travelers". Below this is a red button labeled "Check Availability". At the bottom, there is a "Free cancellation" section stating "Up to 24 hours in advance. [Learn more](#)".
