

How to Use Your Vacation Countdown:

Use a dry erase marker to color in or mark off each month/day as they pass! Before you know it... it will be time!! You can keep it on the fridge, on the desk, on the bathroom mirror... anywhere!

Another great way to display your countdown is to cut around the edges of the white paper to fit into a 8.5x11 inch frame. Place the picture in the frame and display on a shelf or hang it on the wall. You can use a dry erase marker right on the glass as you would on top of the lamination.

Your tags help me book more which in turn gives me more discounts/gifts/credits I can pass your way to save you money so please share and tag you countdown with my business page.
@crazyaboutvacations.com

Thank you!

Mark off each month/day as it passes however you like! Here are a few examples —————→
